SKILLS

### SUMMARY

Highly skilled and creative Front-End Developer with 2+ years of experience building responsive, user-friendly, and scalable web applications. Demonstrated ability to lead and execute full-stack projects—from social media platforms to healthcare and productivity tools—with a focus on clean UI/UX, performance, and maintainable code. Passionate about building impactful digital products, especially in the education and tech-for-good space.

### TECHNICAL SKILLS

HTML5/CSS3

Javascript

React JS

Next.js

Tailwind CSS

Mongo DB

Git / Github

Typescript

Node.js

### PROFESSIONAL EXPERIENCE

#### EdBuddy

Mar 2021 - Feb 2023

##### Mentor Booking System

Let students schedule time with available mentors.

- Stack: React, Express, MongoDB or Appwrite, Calendar APIs (like Google Calendar)

Features:

- Mentor availability management
- Time slot booking with email/SMS notifications
- Dashboard for mentors to see upcoming sessions

##### EdBuddy Blog/CMS for Students & Mentors

A place for career advice, mentor stories, and student achievements.

- Stack: Next.js, MDX or Sanity CMS, Tailwind
- Features:
  - Markdown blog editor
  - Comment section
  - Tags + categories

##### Compass 2.0: Career Dashboard Redesign

Level up the current Compass interface with a modern, dynamic dashboard

Why: The personality & career mapping feature is powerful but may not be engaging enough for Gen Z users.

Tech Stack Fit: React + Next.js + Tailwind + Chart.js or Recharts for cool visualizations

Ideas:

- Radar charts for personality traits
- Dynamic cards for career options, swipeable like Tinder
- Weekly progress tracker or task list from their "Navigator" sessions

##### Healthify – Patient Management System

Tech Stack Fit - React.js, Node.js, Express, MongoDB, Tailwind CSS, JWT Auth

- Designed and developed Healthify, a full-stack web app to streamline patient recordkeeping, appointment scheduling, and treatment tracking.
- Enabled real-time appointment booking with email reminders and status updates.
