Profile

Frontend and Full Stack Developer with a passion for building scalable, user-centric web applications. Experienced in delivering end-to-end solutions across social platforms, e-commerce systems, and management dashboards using React, Next.js, Node.js, and MongoDB. Adept at crafting clean interfaces, integrating APIs, and solving complex problems with modern JavaScript tools.

Skills

Frontend: React.js, Next.js, TypeScript, JavaScript, Tailwind CSS, Material UI, Shadcn UI, Redux Toolkit, Chart.js
Backend: Node.js, Express, MongoDB, Firebase, REST APIs, JWT, Stripe Integration
Dev Tools: Git, GitHub, Postman, Figma, Vercel
ERP/HRIS: SAP SuccessFactors (PMGM, Compensation), Google Calendar API

Professional Experience

Cloud Brisk   *Dec 2023 – Present*
SAP SF Consultant   Pune, India

- Drove full-cycle implementation and support for SAP SuccessFactors PMGM and Compensation modules.
- Managed testing, deployment, and post-go-live assistance for SAP modules.
- Led configuration, requirements gathering, and resolution of client needs.

Freelancer   *Mar 2023 – Nov 2023*
Full Stack Developer   Remote

- Delivered full-cycle SaaS/web app solutions for enterprise and startup clients.
- Engineered scalable architectures for marketplaces and community platforms.

EdBuddy   *Mar 2021 – Feb 2023*
Front-End Engineer   Pune, India

Mentor Booking System
Role: Frontend Developer — React, JavaScript, Material UI, Express
A mentorship match platform with real-time scheduling and session management, focused on improved outcomes and usability.

- Developed the entire frontend for mentor/mentee scheduling and booking flows.
- Integrated Google Calendar API for real-time slot management and reminders.
- Automated notifications and streamlined communication to minimize missed sessions.
- Improved mentor/mentee experience through intuitive design and seamless navigation.

Freelance Projects

Fanpulse – Sports Community Platform
Role: Full Stack Developer — React, Next.js, Firebase, Tailwind CSS, Redux Toolkit
A dynamic social media web and mobile app focused on real-time sports discussions, live match threads, and interactive communities.
- Developed rich feeds with real-time sync for posts and comments using Firestore, elevating user engagement.
- Built customizable notification logic for mentions, replies, and trending events to boost retention.
- Prioritized accessibility and responsive UI/UX for seamless use across all devices.
- Implemented secure authentication and onboarding with Firebase Auth.

Jute Bag Marketplace – E-Commerce Platform
Role: Frontend Developer — JavaScript, TypeScript, Tailwind CSS, Material UI, Bootstrap
Intuitive B2B platform that connects eco-friendly jute bag sellers with bulk buyers, streamlining procurement and sales.
- Designed visually appealing product listings and advanced catalog search for maximum discoverability.
- Engineered optimized seller dashboards and cart/checkout workflows for international orders.
- Integrated Stripe for secure, multi-currency payments and order management.
- Collaborated with designers and stakeholders to rapidly improve feature usability.

Restaurant Management System
Role: Frontend Developer — JavaScript, TypeScript, Tailwind CSS, Material UI, Shadcn UI
Integrated platform for restaurant operations—fluid kitchen coordination, staff scheduling, and seamless customer booking.
- Delivered modern, intuitive UI for both staff operations and customer-facing features.
- Developed real-time order and table queue logic improving workflow efficiency.
- Integrated CRM elements for reservations, loyalty programs, and personalized experiences.
- Implemented robust state management with Redux Toolkit.

ImpactTrackPro – NGO Engagement Platform
Role: Full Stack Developer — React, Next.js, Express.js, MongoDB, Tailwind CSS
A volunteering and NGO collaboration portal, intelligently matching opportunities and automating outreach.
- Created intelligent matching logic for opportunities by interests/location/skills.
- Built mobile-responsive dashboards for NGOs and volunteers.
- Automated engagement tracking and performance reporting using Chart.js visualizations.
- Developed secure registration and authentication for organizations and volunteers.

Healthify – Patient Management System
Role: Full Stack Developer — Next.js, TypeScript, Tailwind CSS, shadcn/ui, Twilio, React Hook Form, Zod, Appwrite, Sentry
Modern healthcare SaaS solution for clinics—secure onboarding, virtual appointments, medical record handling, and notifications.
- Designed and shipped scalable, type-safe modules using Next.js and Tailwind CSS.
- Implemented SMS reminders and alerts via Twilio.
- Integrated Appwrite for secure authentication and storage (JWT, uploads).
- Automated form handling, validation, and error monitoring with React Hook Form, Zod, and Sentry.

Education

Bachelor of Engineering
Gyan Ganga Institute of Technology and Sciences, Jabalpur
